REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art fails to teach or fairly suggest the claimed invention as a whole including a plurality of vent holes whose internal diameter becomes smaller from one end (inlet) toward the other end (outlet), whereby the airflow in passing through the vent holes can be squeezed for increasing its flowing speed, and the air-activating body utilizes its magnetic lines of force or far infrared radiation to activate the passing air, in the context of an air-activating device constructed as an air-activating body made of material with magnetism or far infrared radiation, which treats air intake to an engine.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marguerite J. McMahon whose telephone number is 703-308-1956. The examiner can normally be reached on flex.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Yuen Henry can be reached on 703-308-1946. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
